

Collaborator Cards

Print collaborator cards on double-sided paper and then cut out each card to be handed out to individual students.

These cards were created in collaboration with the Mohawk Council of Akwesasne Environment Program.

Watersheds Canada Representative	Zone 2 Manor house	River Institute Environmental Educator #1	Zone 2 Manor house
<p>Values protecting and restoring the environment. Consults landowners on how plants and other natural materials can be used on their properties to reduce the risk of floods, support pollinators, create terrestrial and aquatic wildlife habitat and prevent erosion on waterfront properties. Hopes that the Maitland Tower site can have less manicured lawns and more natural habitats.</p>		<p>Values space and resources to provide environmental education opportunities and protecting the environment for future generations. Creates and facilitates environmental education programs for students of all ages. Their favourite education program is guiding nature walks.</p>	
<p>Learn more: watersheds.ca</p>		<p>Learn more: education.riverinstitute.ca</p>	
River Institute Research Scientist #1	Zone 2 Manor house	River Institute Research Scientist #2	Zone 1 Forest
<p>Values conservation of nature and ethical research methods. Leads research projects at the River Institute, focusing on the health of the St Lawrence River. Hopes for the Maitland Tower site to be a hub for scientists and community members to learn and connect through nature.</p>		<p>Values the conservation of nature and protecting species at risk in Ontario. Leads research projects that focus on bats, birds and fish around the St Lawrence River. Hopes that the Maitland Tower site will have habitat created for species at risk</p>	
<p>Learn more: riverinstitute.ca</p>		<p>Learn more: riverinstitute.ca</p>	
River Institute Research Scientist #3	Zone 5 Waterfront & Charthouse	Mohawk Council of Akwesasne Environment Program	Zone 1 Forest
<p>Values the protection of aquatic habitats and creation of research spaces. Leads research projects focused on fish species at risk in the St Lawrence River. Hopes that the shorelines along the Maitland Tower site will provide good quality fish and wildlife habitat which includes variety of shrubs and natural structures along the shoreline.</p>		<p>Values the conservation and protection of natural forests and the species at risk. Leads forestry projects focused on the protection of Black Ash Trees. Hopes that the Maitland Tower site can be used as an educational site for students to connect to their local environment and learn about the variety of plants it has to offer there.</p>

DoorNumberOne.org Co-Founder #2	Zone 3 Roadside & Parking lot	South Nation Conservation Authority Representative #1	Zone 1 Forest
Values sustainability and education. Works to connect people of all ages and backgrounds with nature and living a sustainable life-style. Hopes that the Maitland Tower site will be an example of sustainable practices and create opportunities for youth and community engagement.		Values conserving and restoring the natural environment. Provides input to landowners in the South Nation Watershed (where Maitland Tower is located) regarding the conservation of natural resources. Hopes that the Maitland Tower site can be a space where the community can connect with nature and learn to value natural resources.	
Learn more: doornumberone.org		Learn more: nation.on.ca	
South Nation Conservation Authority Representative #2	Zone 3 Roadside & Parking lot	Lashley & Associates Architect	Zone 5 Roadside & Parking lot
Values conserving the natural environment. Provides input to landowners in the South Nation Watershed regarding the conservation of natural resources and takes part in outreach initiatives to engage the public with conservation efforts. Hopes that the Maitland Tower site can be an example of conservation standards regarding erosion prevention and sustainable farming practices.		Values useful and beautiful outdoor spaces and sustainability. Is an architect in landscape design and planning, often combining urban settings with nature and sustainable design. Hopes that the Maitland Tower site will become a site of productivity for people while maintaining its natural feel.	
Learn more: nation.on.ca		Learn more: lashleyla.com	
Condominium Developer	Zone 5 Waterfront & charthouse		
Values prestigious living and good views. Goes from town-to-town scouting sites for potential condo development. Hopes that the Maitland Tower site can have at least a portion of their site developed into prestigious, water-front condos.
